

Landscape South Australia

Landscape Officer Eyre Peninsula Landscape Board

Tenure: Long term contract

Classification: AS04 - \$79,432 - \$83,266

Hours of work: Fulltime (37.5 hours/week)

Reports to: Team Leader Landscape Operations Western

About the role

The Landscape Officer is responsible for contributing to the delivery of the Eyre Peninsula Landscape Board's (the Board) operational programs, projects and priorities as outlined in the *Regional Landscape Plan*. This involves managing and supporting projects and initiatives aligned with the 3 basic pillars of natural resource management, including pest plant and animal control, sustainable agriculture, water management and undertaking associated compliance related activities. Additional focus areas will also include biodiversity conservation and community engagement.

The role will develop and maintain productive relationships with local community and other key stakeholders, through the provision of technical and specialist advice on issues relating to natural resource management.

About us

The Board is one of eight regional landscape boards and Green Adelaide that are responsible for supporting local communities to manage soils, water, pests, and biodiversity through the *Landscape South Australia Act 2019*. The Board invests landscape levies into regional priority issues as well as leveraging Australian Government funding towards managing and protecting our productive and natural landscapes.

The Eyre Peninsula region covers approximately 80,000 square kilometers and includes part of the upper Spencer Gulf, the city of Whyalla, across the southern boundaries of the Gawler Ranges, past Ceduna to the edge of the Nullarbor Plain and south to the fishing hub of Port Lincoln. The local economy is diverse and includes primary industries (cereal crops, sheep, cattle and viticulture), health and community services, manufacturing, retail trade, construction, education and training and mining. The majority of South Australia's aquaculture farming is also located in the region. The Eyre Peninsula supports a population of just under 60,000 people and is the traditional lands of First Nations peoples.

Key results/outcomes to be achieved

- Priority landscape management programs and projects are successfully delivered across the Eyre Peninsula, in line with the Eyre Peninsula Region's Landscape Plan, and the *Landscape South Australia Act 2019* (the Act).
- Compliance, investigation and enforcement is undertaken proactively and in line with requirements of the Act.
- Effective and positive working relationships and partnerships are formed with key stakeholders including local or state government, landowners, volunteers and local communities to achieve landscape management objectives for the region.
- Pest plant and animal control, water resources management, sustainable agriculture, and biodiversity outcomes are delivered and promoted within the region to, landowners, local government, volunteers groups, and other key stakeholders.
- Priority local environmental and natural resource management engagement objectives are met and constructive and cooperative working relationships are fostered with key education partners including schools, local government, community members and other relevant stakeholders.
- Contributes to administration of relevant legislation, adheres to Work Health & Safety policies and procedures, and uses Landscape Board resources and systems in an effective and efficient way.
- Contribute to a safe workplace by accepting responsibility for own and others' safety, identifying and reporting hazards, and participating in consultation about health and safety matters.
