Department of Treasury and Finance

The Department of Treasury and Finance is the lead agency for economic, digital and financial policy outcomes.

We play a vital role in providing financial services to the community and economic and fiscal policy advice as well as digital services to the Government of South Australia.

The Department of Treasury and Finance actively promotes flexible working arrangements and values diversity in the workplace.

Our Purpose

We are *the Government's trusted fiscal, economic, digital and policy advisor*.
We work to ensure *South Australia is a thriving, prosperous State now and in the future*.

Who we are

Talented, Clear Eyed and Curious

We are analytical, evidence based, innovative and creative.

High Performing

We are known for achieving successful and timely outcomes.

Trusted Partner

We work better together. We lead, partner, and collaborate to help solve the big challenges.

Agile

We organise around opportunities critical to our state and are flexible in responding to challenges.

Fulfilled and Fun

We take the work seriously and ourselves less so - we support each other in the pursuit of excellence and make Treasury a great place to work.

What we are known for

A world class Treasury and Finance.
A high performing agency that seizes opportunities, addresses the big challenges, and is a destination employer providing rewarding careers.

Branch/Section

The Accounts Receivable Lead will undertake a key role in the Finance Reform Program (FRP) being led by Shared Services SA to replace the Government's main financial management system (FMS), Masterpiece. The existing system, used by the majority of SA Government Agencies (excluding SA Health), was implemented 30 years ago and is reaching the end of its useful life.

The implementation of Oracle as the selected FMS, and best practice processes, will fundamentally change the way finance activities are performed across all in-scope Agencies and impact a broad range of stakeholders, including financial, ICT and operational teams.

The program of work includes the design and implementation of standardised business processes leveraging industry leading practices and out-of-the-box functionality, testing and deployment of Oracle across a wide range of government agencies; significant change management and stakeholder engagement activities; and execution of a fit-for-purpose training program that supports end user adoption.

What this role is responsible for

- Contribute to design activities relating to the new solution, including business requirements definition, development of the proposed functional configuration and to-be business processes and defect resolution.
- Lead a team to develop solutions and processes that adopt leading financial practices and configure the relevant system option & master data where required.
- Consult and liaise with agencies and internal stakeholders to develop solutions and processes that adopt leading financial practices.
- Undertake complex project work including process re-engineering and standardisation.
- Provide expert Project Accounting related advice to the project team and Agencies.
- Contribute to the development of new process, policies and procedures.
- Work with software vendors and technical resources to ensure that the process design and functional configuration leverages out-of-the-box system functionality and maximises the opportunities for improved efficiency and automation.
- Maintain accurate and complete records of all key documents and decisions in accordance with the State Records Act 1997 and policies and procedures.
- Contribute to the promotion and implementation of Public Sector Principles and Practices and in particular Equal opportunity, Work Health and Safety by adhering to the provisions of various Acts and associated legislation.
