

Murraylands and Riverland Landscape Board

Position Description

Wetland Project Officer – P39773

Tenure: Term contract

Classification: PO1

Hours of work: Fulltime (37.5 hours/week)

Reports to: Wetland Ecologist

Direct reports: nil

The Murraylands and Riverland Landscape Board promotes diversity, and flexible ways of working including part time hours and opportunities to work from home. Applicants are encouraged to discuss the flexible working arrangements for this role by contacting the hiring manager for this role.

About the role

The Wetlands Project Officer is responsible for the initiation and development of programs and projects to improve the ecological health of wetlands and floodplains within the Murraylands and Riverland region, with particular emphasis on the River Murray. The Wetlands Project Officer undertakes community engagement, monitoring and management of priority wetlands and floodplains within a geographical area of the River Murray.

About the Murraylands and Riverland Landscape Board

The Murraylands and Riverland Landscape Board is a statutory body with a focus on enhancing, conserving, and sustaining the landscapes of our impressively diverse region. Spanning vast natural environments and productive agricultural lands, our foremost focus is to collaborate with the region's communities across projects that empower people to be at the heart of landscape management.

Our teams work across projects to conserve native flora and fauna, manage pest plants and animals, and improve the health of the wetlands and floodplains along the River Murray. Our sustainable agriculture team works to drive on-farm productivity, while our engagement team collaborates with First Nations, young people, volunteers and citizen scientists to build the skills and capacity of our greatest asset – our people.

Frontline staff are supported by a dynamic team of professionals working behind the scenes in roles ranging from finance and governance through to communications, planning, information management, monitoring and evaluation, investment support and more, working as one team to deliver for our region.

The landscape board employs around 85 staff with offices located in Berri and Murray Bridge, with satellite sites in Lamerloo, Cambrai, and Karoonda.

About our culture

People are at the heart of everything we do. Whether it's engaging with the region's landholders or creating a supportive environment for our staff, people are always at the forefront.

Reflecting this is an organisational culture that nurtures, empowers and develops staff to create real impact through the work they do. Landscape board employees' skills are developed through ongoing training, education and mentoring opportunities, and leadership programs with the opportunity to grow through promotional opportunities. We offer highly flexible working conditions including the ability to work from home and schedule your work around personal commitments.
